

### **Five (5) Year Warranty on Thermoplastic Coating:**

We fully guarantee all parts and materials for five years excluding vandalism or acts of nature. Our revolutionary thermoplastic coating is guaranteed for five years. Thermoplastic coating will never fade, crack, peel, warp, or discolor for the life of the product. Thermoplastic can be easily repaired. Cuts are repaired by heating the affected area with an industrial heat gun. The thermoplastic will re-bond itself. The properties of the thermoplastic also make spray painting difficult for vandals. Simply wash the product with a standard industrial cleaner. We recommend WD40.

### **One (1) Year Limited Warranty:**

All other 166-series items (ex: wood products, grills) have a one (1) year workmanship and materials warranty excluding vandalism. Claims for defects must be accompanied by copies of the original invoice or invoice number.
