

347-1056

- 
- 1 Drill plastic out of the mounting holes on the stands, seat and back using a 7/16" dia. drill bit.
  - 2 Fasten the seat and back to the stands loosely. The end stands are mounted to the inside of the seat and back mounting plate. The center stand can be mounted to either side of the mounting plate.
  - 3 Fasten the brace to the stands loosely. The center slot is offset. You may need to turn the brace end for end to get it aligned with the stand.
  - 4 Tighten all of the bolts.
