

- An artistic bicycle parking rack that also doubles as street art. It's a fantastic way to attract bicyclists to any location!
- Sends a message that your park, school or organization is bicycle-friendly.
- Made with sturdy and dependable 1.3" OD steel piping manufactured in the USA
- The entire frame from front to back will keep a bike upright and secure.
- Outer coatings are available in two different options – Powder Coated or SealGuard (black only).
- Powder Coating comes in a selection of appealing colors made from a hardy mixture developed specifically to prevent weather damage or fading.
- SealGuard is available only in black and is one of the toughest coatings on the market today.
- Resistant to damage by vandals and graffiti can be easily removed.
- This premium coating is also impervious to salt and sea air.
