

350 Series Bike Locker, Standard

Model: 537-1055

Specifications

Product Details:

Capacity	1 door / 1 Bike
Materials	<ul style="list-style-type: none">• Molded composite lockers shall be manufactured with fiberglass reinforced plastic with a smooth "X" and "Y" pattern on stippled walls and top, with smooth door frame and stippled door. Finish allows easy removal of graffiti and is resistant to impact, scratches and U.V. damage. Lockers shall not use an external or internal frame. Walls and top shall be double wall construction for high strength and insulation from the elements resists impact plus chemicals and stains. Materials will withstand extremes in temperature and other weather/environmental conditions. The locker body components shall be joined by internal fasteners.
Setback:	Please allow 5ft clearance for both doors
Hardware:	<ul style="list-style-type: none">• Number plates recessed in face of door. Stainless steel louvered vents. Gear hooks for riding accessories.• Internal heavy duty locking hardware consists of a sliding locking bar, 4feet, 2 inches in length which is secured to the door with ½ inch stainless steel bolts and rides on Teflon washers. Movement of locking bar is controlled by stainless steel cams attached to the shaft of the lock.• High quality heavy duty gauge stainless steel continuous door hinge with not rust. All fasteners and assembly hardware is zinc plated or better.• Adjustable anchor brackets with stainless steel 3/8" anchors allow leveling of lockers.
