Features:	<ul style="list-style-type: none"><li>• 10 gallon capacity</li><li>• Attachable hinged lid</li></ul>
Space Between Ground and Receptacle	9"
Hole:	<ul style="list-style-type: none"><li>• 18.0"d x 8.0"w</li><li>• Fill with 40 lbs. "ready to use" cement</li></ul>
Bags:	1 box, 50 per box, included
Weight:	4 lbs.
Total Ship Weight:	13 lbs.

*\*Subject to change without notice*

1. Select a good visible spot in your community or park where you want to install the **Poly Trash Receptacle**.
2. **Insert the mounting post (2" x 2" x 4') approximately 14" into an 18" deep by 8" diameter hole filled with a 40 lb. bag of "ready to use" concrete mix.** To stabilize the post while cementing, place a rod, bolt or other device through the two bottom holes, prior to inserting into the ground and cementing. Level the post in a straight vertical position and let concrete dry for at least 12 hours.
3. Install the **Poly Trash Receptacle** through the pre-drilled holes in the back wall of the receptacle and through the square post with the bolts, washers and locknuts. **ATTACH THE LID TO THE TRASH RECEPTACLE PRIOR TO MOUNTING.** Use the 2" fender washers for installation on the inside of the receptacle. The trash receptacle lid will open to pre-determined angle to prevent it from being overextended. The receptacle lid will hit the post when it is fully opened.
4. Insert one of the enclosed **Pet Waste Bags** into the trash receptacle, folding it over the edge of the receptacle and close the trash receptacle lid.
5. **ENJOY WATCHING PET OWNERS PICK UP AFTER THEIR DOGS!**
