Components

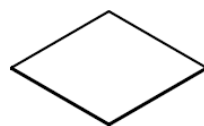

Tools for Assembly: Powered driver and Phillips Head Bit

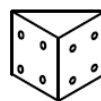

(4) Receptacle Walls

(1) Top

(1) Bottom

(12) Corner Blocks

(48) Deck Screws

Assembly Instructions

Before you begin: Check components to verify all are included. Assembly will require two people and must be performed on a level and smooth surface. Review all instructions steps prior to beginning assembly. Do not overtighten hardware as damage can occur.

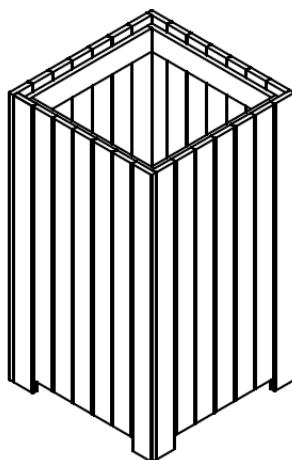

Illustration 'A'

Step 1

Stand receptacle walls upright in a "chase" pattern to create square corners. See Illustration 'A'.

Assembly Instructions Cont.

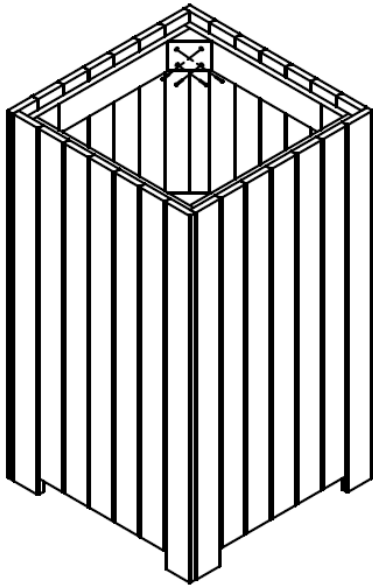

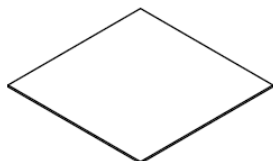

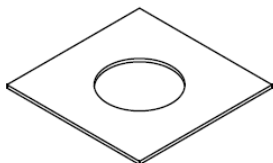

Illustration 'B'

Step 2

Blocks will be placed in each corner at top, middle and bottom horizontal supports. Attach using deck screws, do not overtighten. See Illustration 'B'.

Assembly Instructions Cont.

Step 3

Place bottom panel inside receptacle resting on the horizontal wall slats. Top will rest on upper horizontal wall slats. See Illustration 'C'.

Cleaning Tips

The Park Catalog products are durable and designed to last a lifetime, like most things that spend the majority of time outdoors, sometimes they need a little cleaning. In most cases, all a Park Catalog product requires is mild dish soap, a bucket of warm water and a clean cloth. Apply the soapy mixture to scrub away the dirt and then rinse with water. If you have some stubborn dirt down in the grooves and divots, mix 1 part bleach to 2 parts water, apply with your clean cloth, scrub with a soft bristle brush if needed and then rinse.
