Bags:	2 rolls of 200 bags, included.
Total Ship Weight:	7 lbs.

## Installation Instructions

1. Select a good visible spot in your community or park where you want to install the **Pet Waste Bag Dispenser**, such as on a post, building wall, tree, fence post, street sign post, etc. The recommended installation height of the Pet Waste Bag Dispenser is 60" (5').
2. Remove the two keys from the back of the dispenser. Insert key into the universal cam lock on the front access panel and turn one quarter to the right or left. Pull the lower part of the front access panel approximately 2" towards you and lift to release and separate the front access panel from the body of the Dispenser.
3. The Dispenser has two pre-drilled holes through the back wall. These two holes and the mounting hardware included match with the holes of every standard channel or square telescopic mounting post.
4. To refill the Dispenser with Pet Waste Bags, take two (2) boxed rolls, and tear off the perforated seal from each box. Place the two boxes on top of each other on the shelf in the body of the Dispenser with the opening of the boxes facing the front. Reinstall the front locking access panel and lock with the cam lock key.
5. Reach through the two diamond shaped openings and find the raw edge of the first bag through each of the slots and pull until the logo is visible.
6. **Enjoy watching pet owners pick up after their dogs!**
