ECO FRIENDLY

VANDAL-RESISTANT & MAINTENANCE-FREE

RECYCLED PLASTIC

- Planks are UV resistant and will not fade over time.
- Made with dense, top-grade pure recycled plastic, this bench will never splinter or rot.
- Can be easily cleaned with just soap and water so little or no maintenance is required.
- No need to sand, paint or stain, thereby saving on maintenance and replacement costs.
- Planks are available in natural wood colors such as Cedar or Brown.
- Sturdy metal frame is made from top-grade steel manufactured in the USA. Legs are heavy-duty 3/8" gauge with the remaining frame built with 1/4" gauge thick steel.
- The metal understructure is treated with a zinc-rich finish to prevent corrosion and rust. The frame is then electrostatically treated with a powerful powder-coating that is weather resistant and will retain an attractive luster for years.
